

# FULFILLMENT

## Excellence Through Teamwork

ADC provides all the components for a complete, customized solution for your fulfillment needs. Whether your inventory is meant for B2B, or heading straight to the consumer, we'll tailor a one-time or on-going solution that fits your specific requirements.

### Warehousing

ADC has over 400,000 square feet of high bay, secured class A warehouse space in 3 states (Utah, Colorado and New Mexico), with the latest storage, inventory management and complete order management systems. We even have rail access if you need it.

- **Store Your Inventory Your Way** - Your inventory is received, recorded, and stored according to your specifications. We can accommodate ocean containers, truckloads and pallets, and provide temperature control.
- **Manage Your Inventory Real Time** - Real time inventory management is available 24/7 via secured Internet access with definable permissions, so you can view and manage your inventory levels conveniently and quickly.
- **Use Cross Docking to Streamline the Process** - Send us your inventory and let us customize a solution to trans-ship your products without wasting any time or space.
- **Regional Distribution** - Position your fastest moving inventory items at our affiliate warehouse on the East coast and drop ship your order near your customer.

### Direct to Consumer Orders and Services

Our complete range of services allows us to receive, process and ship your packages to your customers precisely the way you want it done.

- **Send Us Your Orders . . . Your Way** - We can receive orders from your web site, call center, or by email or ftp transmission; call center services and credit card clearance management are also available with 24-hour processing from receipt to ship.
- **Customize Your Pick and Pack Solution** - Whether you have high or low volume line items, we'll pick, pack and prepare your packages for shipping.
- **Choose Your Shipping Option** - Choose from multi-carrier options from our own low cost leader via USPS to fully integrated carriers such as Fedex and UPS for domestic or International shipping.

Our mission is  
to provide  
a perfect  
service  
experience  
to our  
customers,  
and to be their  
#1 choice for  
logistics  
services.

- **Benefit from Sophisticated Order Management Systems** - InOrder by Morse Data, will help you achieve the most accurate integration from shopping cart to credit card processing, and will even allow you to manage your online e-catalogs using our login and permission-based modules.

## Business to Business and Inventory Transfer Orders

ADC provides a full range of services to manage your inventory for B2B and inventory transfer orders. Flexibility is the key to creating a solution that works for you.

- **Pick and Pack by the Pallet or by the Case** - We can pick and pack for B2B or inventory transfer orders with a 24-hour turn around.
- **Utilize EDI Services** - We can process your orders using EDI services to streamline your inventory management and order/ship confirmation.
- **Ship to the Neighborhood or Across the Ocean** - We'll find you the best shipping method for local, regional, national or international distribution (LTL or full truckloads).

## Value Added Services

Does your product solution require something different than standard, "off-the-shelf" packaging? We'll help you develop the ideal solution for packaging and shipping.

- **Create Custom Kits for Your Products**
  - Shrink Wrapping
  - Banding
  - RF Welding
  - Collating
  - Seminar Kits
  - Sales Kits
  - Retail Promotional Kits
  - Kitting
- **Design Custom Packaging and Displays** - We'll help you develop custom packaging designed to maximize protection and shipping compliance.
